

# NDQuickStart

## Simple, honest and personal

Based in the UK, **peregrinecloud** has a proven track record of successful document management implementations across law firms and legal departments of all shapes and sizes. We care what our clients think of us and build excellent working relationships with every single one of them. Clients find our extensive experience in the legal document management sector reassuring and valuable to their business.

## NetDocuments implementation experts

We've been a proud NetDocuments partner since 2013 and the partnership continues to flourish. Our **NDQuickStart** packaged approach makes life easy for customers that have signed up with the NetDocuments service.

Complete transparency enables understanding and allows you to manage your budget whilst still selecting a service appropriate to your specific needs.

**NDQuickStart** from **peregrinecloud** covers everything from standard configurations, plug-in deployment and third party software integrations through to document migration, training and post go-live assistance and support.

“ **peregrinecloud** take care to create document management solutions that continue to deliver value as your organisation grows. ”

## Start your project now!

We have over 20 years' experience helping firms of all shapes and sizes with document management and document collaboration.

Please get in touch - we're ready to help you on your NetDocuments journey.
